

# Hamza Mraizik

Frontend Developer — React, Next.js, Apollo GraphQL

hamzamraizik2004@gmail.com — (+212) 632180194

LinkedIn — GitHub

## Profile

---

Frontend developer experienced in building responsive, accessible, and performant UIs with **Next.js, React, Tailwind, and Apollo GraphQL**. Hands-on with Webflow and WordPress for marketing websites, strong background in state management (TanStack Query, Zustand, RTK), and REST/GraphQL integrations. Seeking a Frontend Developer role to deliver pixel-perfect, optimized, and scalable user experiences.

## Education

---

**1337 School, Khouribga** — Software Development Training 2023–Present  
**Lycée Mohamed V, Béni Mellal** — Baccalaureate, Physical Sciences 2022

## Experience

---

**Freelance Frontend Developer** 2021–Present

- Built responsive UIs with Next.js, React, and Tailwind.
- Integrated Apollo GraphQL APIs with caching, pagination, and optimistic updates.
- Customized and maintained marketing websites on Webflow and WordPress.
- Delivered pixel-perfect interfaces aligned with designer mockups.
- Applied automated testing (Jest, Cypress) to ensure reliability and performance.

**AI Intern — CodeAlpha** Apr–Jul 2025

- Applied NLP pipelines and backend APIs with Python/Node.js.
- Gained experience in reinforcement learning and RAG systems.
- Strengthened cross-functional collaboration between AI and frontend tools.

## Projects

---

**Portfolio Website — Next.js & Apollo GraphQL**

- Developed personal portfolio with Next.js, Tailwind, and Apollo Client.
- Consumed GraphQL API for dynamic content (projects, blogs).

**Transcendance — Multiplayer Game Platform**

- Designed responsive React UI with real-time chat and leaderboards.
- Integrated backend APIs with Apollo Client and REST.
- Styled with Tailwind and deployed via Docker + NGINX.

**WordPress/Webflow Sites**

- Maintained and customized client marketing sites.
- Improved Core Web Vitals and accessibility scores.
- Added multilingual support and SEO optimization.
